## **INDORSE TECHNOLOGIES TO PARTICIPATE IN GARTNER SECURITY & RISK MANAGEMENT SUMMIT**

**New York, NY – June 20, 2011** – [InDorse Technologies](#), the leading provider of file protection software, today announces they will be exhibiting at the [Gartner Security & Risk Management Summit](#) on June 20-23, 2011 at the Gaylord National Resort & Convention Center in National Harbor, MD.

The Gartner Security & Risk Management Summit is the most comprehensive and definitive information download for CISOs as well as security, risk management and business continuity professionals. The event brings together all the issues related to infrastructure protection, governance risk management, business continuity, disaster preparedness, response and recovery as a single team working together to meet business goals.

InDorse will be providing a presentation for its products including Call Home 4.0 and InDIA. The Company will be showcasing software solutions designed to protect organizations' sensitive files, track documents with digital visible and invisible watermarks ensuring the integrity and safety of intellectual property. InDorse will discuss the need for increased file protection in a mobile working environment by presenting how its Call Home and InDIA products track data inside the firewall and beyond.

### **About InDorse Technologies**

Located in New York, NY, InDorse Technologies provides award-winning file protection software. InDorse delivers a new level of file intelligence and assurance that supports risk management, audit, and security objectives. Leveraging the native security elements contained in files, InDorse discovers, organizes, classifies, watermarks, enforces, and tracks all files that contain sensitive information, inside and outside the corporate network. InDorse provides this protection without impact to end users, or any additional desktop software or agents, enabling business and collaboration, but transparently adding additional layers of monitoring and protection. For more information, about InDorse Technologies, please call +1 (646) 495-0966 or visit [www.indorse-tech.com](http://www.indorse-tech.com).

### **About Gartner Security & Risk Management Summit**

The Gartner Security & Risk Management Summit features four programs focusing on Security, Risk Management and Compliance, Business Continuity Management, and chief information security officer (CISO) roles to deliver detailed, role-specific content and

networking. Each program offers a full agenda of analyst sessions, keynotes, round-table discussions, case studies, workshops and more. Additional information is available at [www.gartner.com/us/itsecurity](http://www.gartner.com/us/itsecurity)
